AMSOIL has added a new supplemental partner in filtration. MANN-FILTER, with its U.S. headquarters in Portage, Mich., is the world's largest filter company and a worldwide leader in auto, light truck, heavy duty, motorcycle and off-road filtration products.

MANN-FILTER specializes in European vehicles and provides AMSOIL customers a greater breadth of products for vehicles like Audi, BMW, Mercedes, Volkswagen, Porsche, Volvo and Jaguar. They also build select filters for Ford, GM and Chrysler.

MANN-FILTER Oil Filters
Oil filters from MANN-FILTER purify oil of dirt and solid particles such as dust, abaded metal, carbon deposits and soot particles. The filter housing is pressure-resistant, protected against corrosion and features a long-life elastomer seal. They are low flow resistant for fast lubrication of the engine and come in three different shapes to adjust to different requirements: oil filter elements, spin-on oil filters and oil filters for use in transmission systems.
