“Dedicated to Service”

With Frutaiga you can
”Have a Heart”

If on a daily basis you take 1 to 3 ounces of Frutaiga, you are putting in your body 300 to 900 mg. of our exclusive active ingredient Rosalean. That’s a powerful dose of some amazing, heart healthy plant concentrates that help your entire cardiovascular system, heart, blood vessels and all.

Pomegranate extract and Caucasian Blueberry Leaf extract both have multiple studies showing impressive protection from elevated blood lipids, sticky platelets and oxidation. But the most recent news is really good. Siberian Rhodiola Rosea can have an impact in lowering something called CRP. (C-reactive protein) This stuff is a marker for systemic inflammation in the body. More importantly than lowering the blood marker is that the reason it’s being lowered is because Siberian Rhodiola Rosea is helping to lower the systemic inflammation. That’s good news because it is thought that inflammation is the precursor of almost all degenerative disease including heart disease.
